(a) T1: LSTM minus Cohort mean
One-sided p = 0.656
T1: not rejected
Mean = 0.025
95% interval [-0.073, 0.131]
(b) T2, 14 days ahead: CNN-LSTM minus Ridge (past weights)
One-sided p = 0.922
T2 step not tested: T1 did not reject
Mean = 0.037
95% interval [-0.002, 0.091]
(c) T2, 28 days ahead: CNN-LSTM minus Ridge (past weights)
One-sided p = 0.992
